Chairs

Antonella Cingolani

Università Cattolica S. Cuore,
Policlinico "A. Gemelli", Roma

Giovanni Guaraldi

Università di Modena e Reggio Emilia,
Policlinico di Modena

Simone Marcotullio

Vice-Presidente,
Associazione Nadir Onlus, Roma

Main topics

The conference – devoted to specialists on infectious diseases, internists, geriatricians and members of patient advocacy groups – will focus on the following main topics:

- ✓ Life expectancy' versus 'healthy life expectancy': how to compress disability to advanced age
- ✓ Operationalization of age as a health condition in clinical setting
- ✓ Ageing Cohorts and HIV cohort: can they intersect?
- ✓ Neurocognitive conditions in HIV and other disorders
- ✓ Healthy aging and integrated care for older people:
 - Clinical and research perspectives;
 - Examples of communication technology instruments for the patients' follow-up
- ✓ Italian Guidelines for HIV elderly populations: main ARV principles according to available data
- ✓ Exploring Models of comprehensive geriatric assessment and management in HIV
